

A simple, engaging, modern way to Collect!

With Quest's **Donation Point Go** platform, you can now spread your campaign message using QR Codes, NFC tags or Digital Hyperlinks.

No dedicated apps are required to view and donate to your cause. To increase campaign success, **Donation Point Go** integrates seamlessly with a donor's existing wallet apps saved on their device.

Generate more awareness and increase success with **Donation Point Go**.

SUPPORTED PAYMENTS

More coming soon!

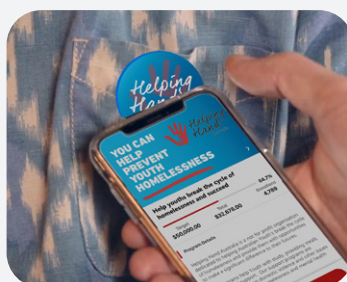

Choose between using QR Code or NFC technology as a means to link your Donor's with your campaign. Donor's then use their Smartphone to scan the QR Code or tap the NFC tag. Doing so immediately brings up your customised campaign page on their Smartphone.

Donation Point Go reduces the friction often associated with making a monetary donation. It's quicker and easier than ever before and will ultimately be a great companion to your fundraising efforts.

EMBEDDED NFC TAG

An alternative to the QR code are our programmed NFC Tags. Just wave any modern Smartphone near the NFC Tag, and up pops your campaign page.

Embed your NFC Tags in objects such as badges, t-shirts, posters or stationery. The sky's the limit!

Donation Point™ GO

- Accept donations of any size
- Minimal campaign maintenance required
- Collect donor data for future use
- Secure online payments to reduce any risk
- Automatically scans donor's phone for existing payment methods
- Can be used unattended in the public or used in face-to-face fundraising, allowing donors to donate wherever and whenever they can.

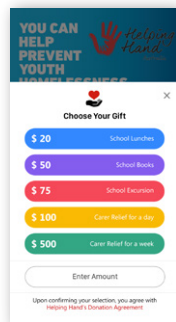

Scan this code with your
smartphone for a demo to
see how it works

Getting your campaign page up and running is easy. Just fill out a simple set up form, providing:

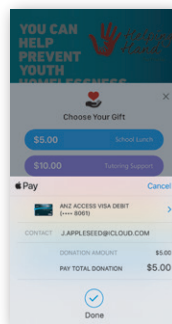

1. Your Charity details
2. Set up your donation page with a *Title, Image, Description and Campaign Target Amount*
3. Specify up to 5 donation amount options for donors to choose from

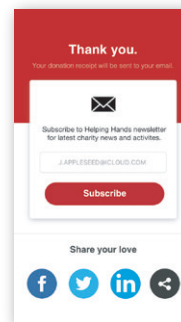

- Header image identifies your appeal
- Live target bar shows campaign progress
- Detailed description of your appeal

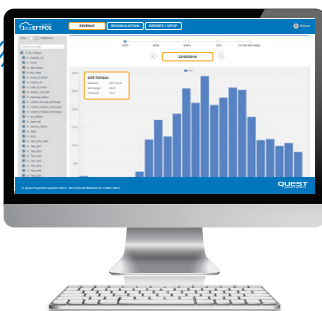

- Multiple donation amounts to select from
- Text descriptions linked to amounts
- Or, provide the option to choose your own donation amount

- Automatically detects E-wallets configured on Smartphone. (If no E-wallet, defaults to Credit/Debit Card entry)
- Minimal data entry required
- Secure online payments

- Automatic email receipts
- Donors can opt in for further contact from your charity
- Donors can share their donation on social media

QUEST
CloudEFTPOS

Take control of your fundraising campaign and monitor your success from the office. Accessed through any browser, Cloud EFTPOS offers a centralised way to monitor, configure and update your products, as well as providing up to the minute transaction reporting on donations received.
